FOR IMMEDIATE RELEASE

City Officials Planning, Preparing for Reopening

Page, AZ (April 29, 2020) – City of Page officials are formulating plans in preparation for re-opening our government and community while adhering to guidance from the Centers for Disease Control (CDC) and Governor Ducey’s office. Retail vendors were permitted to begin curbside service on May 4th. Yesterday, Governor Ducey provided additional guidance on re-opening businesses in Arizona. On May 8th, salons and barbershops can reopen with limited occupancy and following other guidelines from the CDC. On May 11th, dine-in restaurants will be allowed to reopen, again following guidelines from the CDC. City government offices are preparing for staff to move back to the workplace on a metered basis over the next few weeks that will allow adherence to social distancing guidelines in order to ensure employee wellness.
