### FOR IMMEDIATE RELEASE

#### COVID-19 Update, News and Announcements – April 14, 2020

Page, AZ (April 14, 2020) – The City has been made aware that some residents have noticed the ZIP code search tool found on [www.azdhs.gov](http://www.azdhs.gov) does not reflect the accurate boundaries of the ZIP code for Page and the surrounding area, which is 86040. See <https://www.unitedstateszipcodes.org/86040/> for a view of the accurate boundaries of 86040. We are not certain why the inaccuracy exists, but the City does have an inquiry in to the state Department of Health Services and will report back when more is known. Be sure to visit <https://www.coconino.az.gov/2294/COVID-19-Information> for the most up to date information available.

#### Announcement Regarding Horseshoe Bend Parking

The decision has been made to cease charging for Horseshoe Bend parking for the time being. The decision was made in large part to protect employees from unnecessary exposure to COVID-19. Starting April 15, 2020, residents will be able to park for free. The lot will remain open daily from dawn until dusk. Restroom facilities will still be available, and garbage will still be collected. Residents are reminded to take water with them on their hike to the canyon rim. Camping and overnight activities are still prohibited. Normal operation will resume when it is appropriate to do so again.
