FOR IMMEDIATE RELEASE

Daily Update – March 20, 2020

Page, AZ (March 19, 2020) – Following the announcement yesterday of two presumptive positive COVID-19 cases in Page, there is no new information to share. At this point it is important to note that the Coconino County Health and Human Services (CCHHS) is still the lead government agency addressing the epidemic in our county and they are actively investigating. The City was contacted this morning by CCHHS and was provided with some community guidelines, to wit:

Moving forward, individuals experiencing mild respiratory illness, such as a mild fever or cough, are not a high-priority for COVID-19 testing. These individuals should stay at home, monitor symptoms, contact their healthcare provider for medical advice and distance themselves from others as much as possible. Please see the CDC Guidance, The Ways to manage respiratory symptoms at home (www.cdc.gov/COVID19).

COVID-19 testing is important for those individuals who are experiencing severe symptoms or difficulty breathing. Individuals experiencing serious symptoms should contact their healthcare provider for medical advice or call the Coconino County COVID-19 Information Line at 928-679-7300. Anyone experiencing a medical emergency should call 911.

Updated information, including current CCHHS Guidance and the Coconino County Proclamation for Social Distancing, is available at www.coconino.az.gov/COVID19.
