COMMUNITY DEVELOPMENT DEPARTMENT  
928.645.4261**

**AMENDMENT 1**

**NOTE:** Attach to original Request for Qualifications.

**NOTICE TO PROPOSERS:** This Amendment forms a part of the contract and clarifies, corrects, or modifies the original Request for Qualifications documents prepared by the City of Page.

Last Day for Inquiries: November 18, 2020 at 5:30 PM

Submittal Due Date: December 2, 2020 at 4:30 PM

Page City Hall  
P.O. Box 1180  
697 Vista Avenue  
Page, AZ 86040  
Attn: Kim Larson, City Clerk

---

**THE FOLLOWING QUESTIONS WERE ASKED BY PROPOSERS PRIOR TO THE INQUIRIES DEADLINE:**

**Q1: Within the 3rd category of Architectural Design Services, there are subcategories. Will the City of Page accept submittals just for the Structural Design subcategory? Or is the City looking for a multi-disciplined team lead by an architectural firm?**

*A1: The city is looking for a multi-disciplined team with the ability to perform, to include but not limited to, architectural design, structural design, electrical engineering, and mechanical engineering. Applicants may include subconsultants in their multi-disciplined team.*

**Q2: If the City will allow remote plan review, would a firm located outside the 150 mile range lose points (up to 10) for being outside the 150 mile range?**

*A2: A firm located farther than 150 miles from Page may not qualify for the full 10 points under the Evaluation and Selection Criteria. Travel to Page may be required to maintain a limited but regular presence for onsite duties such as inspections.*

**Q3: Under Category 2: Building Plan Review and Inspection Services, is it okay for a firm to submit for just the Building Plan Review portion?**

*A3: Yes, however both building plan review and inspection services are preferred for this category.*

**Q4: Per the Discipline Checklist, can *Building Plan Review* and *Expedited Building Plan Review* be provided remotely?**

*A4: Yes, building plan review and expedited building plan review may be done remotely. Inspections must be done on location.*
