

REQUEST FOR QUALIFICATIONS (RFQ): LAKE POWELL NATIONAL GOLF COURSE – DESIGN-BUILD DRIVING RANGE AMENITIES

The City of Page invites interested Contractors to submit a written Statement of Qualifications (SOQ) for performing Design-Build services relating to the design and construction of new driving range amenities at the Lake Powell National Golf Course in the City of Page, Arizona.

To be eligible for consideration, Contractors must submit an SOQ demonstrating appropriate competence, qualifications, and relevant construction experience with these types of projects. The City will select and negotiate with those contractors whose submittals are responsive to this RFQ and are in the best interest of the City. Any documents submitted in response to this RFQ must provide sufficient detail and information so as to allow a complete evaluation of its merit. The instructions contained herein should be followed for responses to be considered responsive to this RFQ. The City reserves the right to cancel this solicitation at any time.

PROJECT DESCRIPTION

Lake Powell National Golf Course is an 18-hole public course located in Page, Arizona and is owned and operated by the City of Page. Over the last several years, the golf course has seen significant increases in rounds played and food and beverage revenue. One area that has not increased as dramatically is the driving range. The City of Page has recently invested in a clubhouse renovation that has had an immediate impact on revenue and is prepared to do the same for the driving range. Nationwide, the driving range has become a focal point in the golf industry whether it's a Private Facility, Public Course, or a place like Top Golf. The goal is to incorporate food and beverage, and events into the driving range experience creating an environment attractive to both golfers and non-golfers. To achieve this goal, we anticipate the construction of a shade structure (approx. 150' x 25') to include up to 15 hitting bays, hitting bay dividers, led lights in each bay, and led driving range lights. Additional objectives of the amenities are to create new golfers and provide nighttime activities. Power is available on site. Out of the approved budget, the City of Page may provide a concrete slab, driving range mats, outdoor furniture, and a golf ball dispenser. The structure must meet all necessary building codes and have a maximum wind rating of 150mph along with a 25 PSF snow load.

The objective of this RFQ is to select a Design-Build team to work with City staff and stakeholders on the concept development, final design, and construction of the chosen amenities.

RFQ PROCESS

All statements of qualifications must be received by the City Clerk by **5:00 p.m. on Tuesday, September 10, 2024**. At that time, all responses duly received will be opened. When responses are opened, the names of the contractors and all responses to the RFQ shall be a matter of public record. All criteria for evaluation are set forth in the RFQ. The City reserves the right to reject any or all Statements of Qualifications, to waive any informality or irregularity in any Statement of Qualifications received, and to be the sole judge of the merits of the respective Statements of Qualifications received. No binding contract will exist between the submitter and the City until the City executes a written contract.

10.6.1 To the fullest extent permitted by law, the Contractor shall indemnify, hold harmless and defend City, its agents, officers and employees from and against claims, damages, losses and expenses, including but not limited to attorneys' fees, arising out of or resulting from performance of the Work, provided that such claim, damage, loss or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself) including loss of use resulting therefrom, but only to the extent caused in whole or in part by negligent acts or omissions of the Contractor, Engineer, Consultants, Subcontractors, anyone directly or indirectly employed by them or anyone for whose acts they may be liable. Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity which would otherwise exist as to a party or person described in this Subparagraph.

10.6.2 In claims against any person or entity indemnified under this Subparagraph by an employee of the Contractor, Engineer, consultants, subcontractors, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, the indemnification obligation under this Subparagraph 10.6 shall not be limited by a limitation on amount or type of damages, compensation or benefits payable by or for the Contractor, Engineer, Consultants, or Subcontractors under workers' or workmen's compensation acts, disability benefit acts or other employee benefit acts.

ARTICLE 11. SUBCONTRACTORS

11.1 Definition.

The term "Subcontractor" is referred to throughout the Contract Documents as if singular in number and masculine in gender and means a Subcontractor or his authorized representative.

11.1.2 A Sub-subcontractor is a person or organization who has a direct or indirect contract with the Subcontractor to perform any of the Work at the site, or to supply any materials or equipment to be used in the Project. The term "Sub-subcontractor" is referred to throughout the Contract Documents as singular in number and masculine in gender, and means a Sub-subcontractor or his authorized representative.

11.1.3 Nothing contained in the Contract Documents shall create any contractual, master-servant or principal-agent relationship between the City and the Contractor, Engineer or any Subcontractor or Sub-subcontractor.

11.2 Subcontractual Relations.

11.2.1 All work performed for the Contractor by a Subcontractor shall be pursuant to an appropriate agreement between the Contractor and the Subcontractor (and where appropriate between Subcontractors and Sub-subcontractors) which shall contain provisions that:

.1 Preserve and protect the rights of the City under the Contract Documents with respect to the Work to be performed under the subcontract so that the subcontracting thereof will not prejudice such rights.

.2 Require that such Work be performed in accordance with the requirements of the Contract Documents.

11.3 Payments to Subcontractors.

11.3 City shall not have any obligation to pay or to see to the payment of any monies to any Subcontractor except as may otherwise be provided by law.

ARTICLE 12. MISCELLANEOUS PROVISIONS

12.1 Successors and Assigns.

12.1 The City and the Contractor each binds itself, its successors, assigns and legal representatives to the other party hereto and to the successors, assigns and legal representatives of such other party in respect to all covenants, agreements and obligations contained in the Contract Documents.

12.2 City's Right to Complete the Work.

12.2 If the Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents, or fails to perform any provision of the Amendment, City, after providing seven days' written notice to the Contractor and his surety, and the opportunity to cure, which cure must commence within said seven day period, and without prejudice to any other remedy City may have, may proceed to make such other necessary and reasonable arrangements to carry out the Work in accordance with the Contract Documents, all at the expense of the Contractor, including City's attorneys' fees and other costs.

12.3 Royalties and Patents.

12.3 The Contractor shall pay all royalties and license fees. Contractor shall defend all suits or claims from infringement of any patent right and shall save City harmless from loss on account thereof, including the City's attorneys' fees and court costs.

12.4 Tests.

12.4.1 Where the Contract Documents, laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Work to be inspected, tested or approved, the Contractor shall give City timely notice of its readiness and of the date arranged so City may observe such inspection, testing or approval. All inspections or tests required by the Engineer or the authority having jurisdiction shall be paid for by City.

12.4.2 The Contractor shall be responsible that all equipment and materials used in the construction of the Project, especially those upon which the strength and durability of the structure may depend, shall be subject to adequate inspection and testing in accordance with accepted standards to establish conformity with Specifications, applicable codes and standards and suitability for use intended.

ARTICLE 13. TIME

13.1 Contract Time, Liquidated Damages and Related Provisions.

13.1.1 It is understood and agreed that the construction of the Work under the Contract Documents shall be commenced on the date stated in the Notice to Proceed issued by the City or the date of this Amendment if no Notice to Proceed is issued, and shall be completed by the Contractor within the time specified in Article 1 herein (the "Finish Date"). The date of beginning, rate of progress, and time for completion are essential conditions of the Contract, and the Contractor agrees that said Work shall be prosecuted regularly, diligently, and uninterruptedly at such rate of progress as will ensure full completion thereof within the Contract Time specified. It is expressly agreed that the Contract Time is reasonable.

13.1.2 If the Final Completion Date occurs after the expiration of the Contract Time, the Contractor shall pay City the appropriate sum specified in Subparagraph 8.2 herein as liquidated damages for each calendar day the Work remains incomplete after expiration of the Contract Time. These amounts are agreed upon because of the impracticability and extreme difficulty of ascertaining the actual damages City would sustain. Said amounts may be retained by City from final payment due the Contractor, provided the Contractor does not waive any rights or claims against such amounts withheld should there be a dispute.

13.1.3 The Final Completion Date is the calendar date when all items of the Work is one hundred percent (100%) finished.

13.2 Delays and Extensions of Time.

13.2 All claims for extension of time shall be made in writing to City. The notice of claim must be submitted no more than twenty (20) days after the occurrence of the delay and a detailed claim including a breakdown of all known costs involved shall be submitted no more than twenty (20) days after the occurrence; otherwise, such claim shall be waived. In the case of a continuing cause of delay, only one claim is necessary, although the Contractor shall promptly notify City in writing of the date of the termination of the continuing cause of delay.

ARTICLE 14. PAYMENTS AND COMPLETION

14.1 Progress Payments.

14.1.1 The Contractor shall submit to City an itemized application for payment supported by such data substantiating the Contractor's right to payment as City may require. The Contractor shall also submit a release of claim and lien waiver covering all work performed to date, including the work of each Subcontractor, laborer and material supplier. If lien waivers from all subcontractors, materials or equipment suppliers do not equal the aggregate sum of the previous progress payment, the Contractor shall submit the following statement along with the current progress payment request: "I hereby certify as General Contractor on this Project that I have paid all subcontractors, materials or equipment suppliers for the Work provided in conjunction with this Project for which I have previously received payment."

14.1.2 Payments shall be based on the work actually performed during the preceding calendar month.

14.1.3 The Contractor warrants and guarantees that title for all work, materials and equipment covered by an Application for Payment shall pass to City either by incorporation in the Project or upon receipt of payment by the Contractor, whichever occurs first and that such work, materials and equipment shall be free and clear of all liens, claims, security interests or encumbrances, except for claims arising out of City's failure to pay as required herein.

14.2 Approvals for Payment.

14.4.2 The City shall make a payment to the Contractor on the basis of the value of the Work actually performed during the preceding calendar month less the amount of retention. Such payments shall be made within twenty-one (21) days after receipt of application for payment.

14.4.4 The City shall retain ten percent (10%) of the amount of each application for payment as insurance of proper performance of the Contract. Once the Work is fifty percent (50%) complete, one-half of the retention then held shall be paid to the Contractor provided the Contractor is making satisfactory progress and there is no specific cause or claim requiring a greater amount to be retained. After the Contract is fifty percent (50%) complete, five percent (5%) of the amount of each subsequent application for payment shall be retained providing the Contractor is making satisfactory progress on the Project. If at any time the City determines that the Contractor is not making satisfactory progress, then the City may retain ten percent (10%) of all subsequent applications for payment.

14.4.5 No certificate for a progress payment, nor any progress payment, nor any partial or entire use or occupancy of the Project by the City, shall constitute an acceptance of any Work not in accordance with the Contract Documents.

14.3 Payments Withheld.

14.3.1 The City may decline to approve any Applications for Payment or, because of subsequently discovered evidence or subsequent inspections, may nullify the whole or any part of any Certificate for Payment previously issued to such extent as may be necessary in its opinion because of

- .1 defective work not remedied,
- .2 claims filed or reasonable evidence indicating probable filing of claims,
- .3 reasonable evidence that the Work cannot be completed for the unpaid balance of the Contract Amount,
- .4 damage to another contractor,
- .5 reasonable indication that the Work will not be completed within the Contract Time, or
- .6 failure to carry out the Work in accordance with the Contract Documents.

14.3.2 When the grounds in Subparagraph 14.3.1 are removed, or in the case of 14.3.1.3, when the City is satisfied that the Contractor will complete the Project at the agreed-upon price, payment shall be made for amounts withheld because of them.

14.3.3 If the Contractor is not paid within fourteen (14) days after any amount is approved for payment and has become due and payable, then the Contractor may, upon seven additional days' written notice to the City, stop the Work until payment of the amount owing has been received. The Construction Amount shall be increased by the amount of the Contractor's reasonable costs of shutdown, delay and start-up.

14.4 Substantial Completion and Final Payment.

14.4.1 When the Contractor determines that the Work or a designated portion thereof acceptable to the City is substantially complete, the City shall prepare for submission to the Contractor one punch list of items to be completed or corrected on the Project, or designated portion thereof. The punch list shall be the basis for determination of the Date of Final Completion. Any item on such list shall be completed or corrected before the Final Completion Date. The failure to include any items on such punch list does not relieve the responsibility of the Contractor to complete all work in accordance with the Contract Documents. When the City, on the basis of an inspection, determines that the Work is substantially complete, it will then prepare a Certificate of Substantial Completion. The Certificate of Substantial Completion shall be submitted to the Contractor for his written acceptance.

14.4.2 Upon receipt of written notice that the Work is ready for final inspection and acceptance, the City will promptly make such inspection and, when the City finds (1) the Work in accordance with and acceptable under the Contract Documents, (2) the Work completed under the Contract fully performed and (3) the Final Completion Date has been reached, as that term is defined in Subparagraph 13.1.3, then, and only then, the City shall promptly state in writing that, to the best of his knowledge, information and belief, and on the basis of observations and inspections, the Work has been fully completed in accordance with the terms and conditions of the Contract Documents, and that the entire balance found to be due the Contractor is payable.

14.4.3 The making of final payment shall constitute a waiver of all claims by the City except those arising from:

- .1 unsettled claims,
- .2 faulty or defective Work,
- .3 failure of the Work to comply with the requirements of the Contract Documents, or
- .4 terms of any guarantees required by the Contract Documents.

14.4.4 The acceptance of final payment shall constitute a waiver of all claims by the Contractor, except claims made but not settled.

14.4.5 If, after Substantial Completion of the Work, Final Completion thereof is materially delayed through no fault of the Contractor or by the issuance of Change Orders affecting Final Completion, the City shall, upon application by the Contractor and without terminating the Contract, make payment of the balance due for that portion of the Work fully completed and accepted. If the remaining balance for Work not fully completed or corrected is less than the retainage stipulated in the Contract Documents, and if bonds have been furnished, the written consent of the surety to the payment of the balance due for that portion of the Work fully completed and accepted shall be submitted by the Contractor to the City prior to certification of such payment. Such payment shall be made under the terms and conditions governing final payment, except that it shall not constitute a waiver of claims. If a Change Order extending the time for Substantial Completion is issued within 90 days of the Contract Time specified for Substantial Completion, the Contractor shall be entitled to payment of retention based upon the date of Substantial Completion disregarding the change in Contract Time resulting from the Change Order, providing that all other conditions to the payment of retention have been satisfied. Where retention is paid prior to Final Completion, the City may retain an amount equal to two hundred percent (200%) of the value of the Work that remains incomplete.

ARTICLE 15. PROTECTION OF PERSONS AND PROPERTY

15.1 Safety Precautions and Programs.

15.1.1 The Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work in compliance with all local, state and federal laws and regulations.
